

Message From Your Pristine Team:

We understand - running a dental practice is hard. The hours can be long and the insurance companies can be difficult. Adding one more thing to your plate might seem overwhelming. We are here to make your practice a little more profitable, without making it more difficult.

Have you heard your peers talking about medical reimbursements, not dental, for treating patients with sleep apnea for a technically easy process? What are you missing? How much money are you losing by not getting involved in this growing area of OSA impressions?

We understand that for you, adding an additional service may be a daunting endeavor. Most of the Dentists we assist felt the same way. What if we said, "*We have a solution to this problem?*" The truth is your peers are able to run a busy practice and find a way to **add one OSA impression per day**, through our services.

What if by implementing our OSA system and adding one OSA impression per day, increased your compensation by an average of **\$30,000 - \$80,000** per month? Let us show you **why** it is worth the time and the cost to get credentialed and start treating OSA patients!

It's true the process is complex and getting credentialed will take 3-4 weeks; however, we've got you covered. We have a team of specialists that can get you credentialed while you are treating your first patients - fill out the Client Info Form and we will take it from there!

As we begin your registration, we will assign a Supplier, a Sleep Center or Sleep Specialist in your your area to refer patients back to you. This is what we call our **3-S Network**.

Still not sure what is entailed or how to get your practice started in the right direction? Don't worry - take a peek at this guide for a quick overview, and give us a call. We will answer all your questions.

We look forward to working with you.

Sincerely,
Jenifer, Deihdra & Kendra
